

Over There

Eddie Rabbitt

Over there
I left her waiting over there
I kissed her lips and said goodbye
That rainy night and sailed away

Over there
My heart keeps goin' over there
In dreams at night I see her hair
Blowin' in the wind, standin' by the sea

Yesterday, a million miles away
Yesterday
Now over and over and over again
I dream about you, girl

Over there
I wanna go back over there
And find the love I left behind
So far behind, a long, long time ago

Yesterday, a million miles away
Yesterday
Now over and over and over again
I dream about you, girl

Over there
I wanna go back over there
And find the love I left behind
So far behind, a long, long time ago
A long, long time ago
I left her waiting over there
A long, long time ago
A long, long time ago
I left her waiting over there
Over there
My heart keeps goin' over there
