

# She Loves Me Like She Means It

Eddie Rabbitt

She's not the kind who likes to hang around with me and the guys  
She said she wants me all to herself  
Now, ain't that nice?

She's got those lovin' eyes  
That make me wanna stay  
Yeah, she's my lucky day

She loves me like she means it  
She loves me, I can feel it  
And lookin' in her eyes  
I see my sweet surprise  
She's got moonlight in her mind  
Ooh, she makes love mighty fine

Now, she's the kinda girl that looks so fine wearin' anything  
(She looks so fine)  
She looks her best when all she's wearin' is that diamond ring  
What keeps that smile on her face?  
This world can be so cruel  
Oh, she's nobody's fool

And she loves me like she means it  
Oh, you know she does  
She loves me, I can feel it  
And all day, all night  
Ooh, we fit together right  
She's got fire in her soul  
She makes me lose control

And she loves me like she means it  
Oh, you know she does  
She loves me, I can feel it  
Ooh, she loves me like she means it  
Ooh, ooh, ooh  
She loves me, I can feel it
