

# You Got Me Now

Eddie Rabbitt

I looked in your eyes and that's all it took  
You melted my heart with just one look  
The fires burning out of control

And then you touched me, sparks did fly  
And when you kissed me, well I thought I'd die  
I'm slowly slipping under your spell

Ooh, you got me now  
Right where I wanted to be, lucky me  
Ooh, you got me now  
Now what you gonna do me?  
Ooh-ee, you got me now

I dreamed of your kisses every night  
I've tasted your lips and held you tight  
But I never dreamed I'd be holding you now (ooh)

You're even better than my fantasies  
You're way beyond my wildest dreams  
I can't believe this heaven I found

Ooh, you got me now  
Right where I wanted to be, baby  
Ooh, you got me now  
What you gonna do me?  
Ooh-ee, you got me now

Oh, so what you gonna do with me baby?  
Oh, what you gonna do? Drive me crazy  
Oh, what you gonna do little lady?

I looked in your eyes and that's all it took  
You melted my heart with just one look  
The fires burning out of control

And then you touched me, sparks did fly  
And when you kissed me, well I thought I'd die  
I'm slowly slipping under your spell

Ooh, you got me now  
Right where I wanted to be, baby  
Ooh, you got me now  
Now what you gonna do me?  
Ooh-ee, you got me now

Ooh, you got me now  
Right where I wanted to be, lucky me  
Ooh, you got me now  
Now what you gonna do me?  
Ooh-ee, you got me now  
Right where I wanted to be, baby  
Ooh, you got me now  
Now what you gonna...
