

# Come Live With Me And Be My Love

Eddy Arnold

Come live with me and be my love  
Come fullfill the dreams my heart's dreaming of  
While the turtle dove calls to the mist as Aparil rain falls  
Oh come live with me and be my love

Come take my hand and walk with me  
Unafraid to face whatever may be  
While the wildwoods murmur with the sweetest wind songs of summ  
er  
Oh come live with me and be my love

And say to me autumn leaves turned to gold  
Stay and hold me in your arms when the world is cold

Come stand with me and be my love  
While the candle shine and bells ring above  
And forsake me never could be my love forever  
Oh come live with me and be my love
