

I Wish I Didn't Love You So

Eddy Arnold

I wish I didn't love you so
My love for you should have faded long ago
I wish I didn't need your kiss
Why'd must your kiss torture me as long as this

I might be smiling I know with some new tender friend
Smiling I know with my heart on the mend
But when I try something in that heart says no
You're still there I wish I didn't love you so
[guitar]
But when I try something...
