

# On Top of the World

Edenbridge

I was prowling in the dark  
It was a game of chance I played  
Thought I had the vital spark  
Tired out I was in this cascade

When truth began to dawn on me  
Backing the wrong horse one decade  
On floating ice so endlessly  
A tug-of-war in this grand charade

See how the land lies  
Welcome the sunrise  
Farewell to the disguise  
Mark my words and never say die

On top of the world  
On the edge of sheer heaven  
Believe in this red-letter-day  
Life comes to light  
By no means it ain't over  
The flowering time has begun  
(You'll be there)  
You'll be on top of the world

Nothing venture, nothing have  
Clearing the figments of the mind  
Never walking this way half  
Beating the air and one eyed blind

Redress the balance  
Come take this mere chance  
Fall into this romance  
The scale will fall from your eyes

On top of the world  
On the edge of sheer heaven  
Believe in this red-letter-day  
Life comes to light  
By no means it ain't over  
The flowering time has begun  
(You'll be there)  
You'll be on top of the world

Wild horses won't drag me back on the track  
Cause I've got the hang of it now  
A flash in the pain  
As sound as a bell  
The odds are in my favour now

On top of the world  
On the edge of sheer heaven  
Believe in this red-letter-day  
Life comes to light  
By no means it ain't over  
The flowering time has begun  
(You'll be there)  
You'll be on top of the world

Top of the world uh-uh-uh-uh  
Heaven is here sheer heaven is here  
Why not believe so will you believe  
This glory day we're on top  
Top of the world so we are on top  
Heaven is here so heaven is here  
Why not believe and when life comes to light  
You'll be there you'll be on top of the world  
Top of the world
