

# Until The End Of Time

Edenbridge

Long ago,  
When I looked for a home  
You came to me  
And left me with a smile  
Cause in my dreams,  
I saw you before  
You changed the way I feel  
Within a while

Waiting for you,  
Endless days go by  
A life without you  
Is just another lie  
When you are here,  
Forever you'll be mine  
Music and me,  
Until the end of time

You bring me on  
A journey far away  
The cosmic sound  
And wave is taking me  
Down the ages,  
But maybe long before  
It's leading me into infinity

Waiting for you,  
Endless days go by  
A life without you  
Is just another lie  
When you are here,  
Forever you'll be mine  
Music and me,  
Until the end of time

You take me down  
Right on the ground  
Reality is fading  
And I'll be aware of,  
This vision is mine  
Cause we're uniting  
With the sound  
The sadness and joy  
Of the whole world  
The spirit in my heart,  
The music whill shine

Waiting for you,  
Endless days go by  
A life without you  
Is just another lie  
When you are here,  
Forever you'll be mine  
Music and me,  
Until the end of time
