## Engage

## Edgewater

So proud Well take a bow It's coming 'round And I think I'll give you a taste You won't forget the day we met And what was said

So now The time has come To watch your back Don't stand alone And I'll say just one last thing Don't turn away

Why can't you listen to me? You'll find it out The price is out on your head And I'm willing to pay Your time ran out Your lights go down in red

Afraid To take a stand You had one last chance To make amends Now you'll pay For your mistakes It's your last day

Why can't you listen to me? You'll find it out The price is out on your head And I'm willing to pay Your time ran out Your lights go down in red

Listen to me You'll find it out The price is out on your head And I'm willing to pay Your time ran out Your lights go down and now you'll see

I don't give a fuck No, I don't give a fuck

Listen to me, lesson to you Listen to me, lesson to you Listen to me break

Why can't you listen to me? You'll find it out The price is out on your head And I'm willing to pay Your time ran out Your lights go down in red Listen to me You'll find it out The price is out on your head And I'm willing to pay Your time ran out Your lights go down and now you'll see

So proud Well take a bow It's coming 'round You'll find out

Listen to me, lesson to you Listen to me, lesson to you LISTEN TO ME, LESSON TO YOU
