

One Perfect Something

Edgewater

She says she's sick of all the things that fall
She makes no sense tonight her minds alright
But age sets in

She's pushing away her flight of life
It's out reflecting a thousand miles of light

Just one person
Just one wrong or right
Just one perfect
Just one way

She's pushing away her flight of life
It's out reflecting a thousand miles of light
Could we compromise just once?

She says she's sick of all the things that fall
She breaks the silence to the world she hates

There's just one person for me
Just one wrong or right
Just one perfect something
Just one way
