

## With Our Hands

Edie Carey

This all started with our hands  
Underneath a table and I couldn't concentrate  
I don't even think I heard that band  
'Cause everything in me kept saying  
Maybe you're too late

But you loved me still  
Anyone could see you felt broken  
Yeah, you loved me still  
Anyone could see it

The best revenge is a new song  
And lord knows we both had no shortage of those  
But you can only harvest heartache for so long  
It's getting to the point I just want a safe place to go

So I loved you still  
Anyone could see my heart was reeling  
Yeah I loved you still  
Anyone could see it

Now you say you want to be responsible  
You don't want to one day have to take it all back  
Do you really think that I'm that breakable?  
And baby you know I hate that you see me like that

Will you love me still?  
Anyone could see my heart is reeling  
Will you love me still?  
Anyone could see it, yeah
