

## My Fair One

Edison Glass

Awake from winters rest  
Why cleave unto the dust?  
From lower loves, desires, pursuits, and fears  
Don't wait for passing moments  
I'm calling for you now  
I'm calling for you to come

Rise up my love (rise up)  
My fair one, come away  
Rise up my Love (my love)  
My fair one, come away

Kindle sacred flames  
Of love within my heart  
My love I count you fair  
This argument to rise  
Don't wait for passing moments  
I'm calling for you now  
I'm calling for you to come
