

This House

Edison Glass

I shut all my windows
They protect me from the storm
I'm alone but I wait for someone
One who keeps the lights on
One who keeps the house warm

I feel a swaying rhythm
If we get swept to sea I'll be happy
It's all we wish for now
I wish you'd keep the lights down
I wish you'd keep the house warm

We have enough we can handle it
If we don't make I will fall apart
All is in vain for us.

I think we can make it now
I think that we can make it
I wish you'd keep the lights down
I wish you'd keep the house warm
