When the time comes

**Ami G D**

That you're no longer here

**Emi D G**

Fall down to my knees

**Ami G D**

Begin my nightmare

**Emi D G**

Words spill from my drunken mouth

**Ami G D**

I just can't keep'em all in

**Emi D G**

I keep up with the racing rats

**Ami G D**

And do my best to win

Slow down little one

You can't keep running away

You mustn't go outside yet

It's not your time to play

Standing at the edge of your town

With the skyline in your eyes

Reaching up to god

The sun says its goodbyes

How big a hole would it leave

**D**

In the surface of the earth

Let's pretend we never met

Let's pretend we're on our own

We live different lives

Until our covers blown

I push my hand up to the sky

Shade my eyes from the sun

As the dust settles around me

Suddenly nighttime has begun
