

Save Me From Myself

Edson

I've been a liar
I've been a fool
Been digging for fire
With the wrong tool

I've played with people
Like if they were toys
Deeper and deeper
I'm far from rejoice

(Oh won't you)
Save me from myself
And cure this mad disease
Save me from myself
Please

I've been a coward
A self-centred prick
And what I've discovered
Is making me sick

(Oh won't you)
Save me from myself
And cure this mad disease
Save me from myself
Please

Please, believe me when I play
Believe me when I say
I'm sorry and I'll pay the price
Believe me when I sing
Believe me when I cling
I'm sorry! I regret those lies
