

# Close Your Eyes

Edward Maya

Close your eyes  
Take my hand  
For so long I'm sitting here all alone  
Come with me  
Set me free  
You can see my love was here all along

When I see you  
I want you right now  
Close to mine heart  
I want to hurt you  
Baby you are all, all my life  
Right now

When I feel you  
You take me somewhere faraway  
Baby, when I touch you  
I'm burning so hot  
I can lose you tonight

Close your eyes  
Take my hand  
For so long I'm sitting here all alone  
Come with me  
Set me free  
You can see my love was here all along

I love you, I love you  
Oh baby feel this  
I love you, I love you  
Oh baby feel this  
I love you, I love you  
Oh baby for this moment  
You are the one for me

I'm feeling your love right now  
Is this a moment of my life  
This is the time for me  
To say I love you, I need you right now

Close your eyes  
Take my hand  
For so long I'm sitting here all alone  
Come with me  
Set me free  
You can see my love was here all along
