

Stay Longer

Edward Maya

Wish I could stay longer
I know you want me stay but I have things to go
Wish I could stay longer
Now ain't you angry for me I just need to go

Wish I could stop by
And maybe say hi
Wish I could take you with me happy by my side
Wish I could stop by
And maybe say hi
Wish I could take you with me happy by my side

The rhythm takes me high
I'm flying by your side
I wanna closer now, we can pretend it's love
I wanna feel your touch
So close to me tonight
You know I'll be so happy being by your side

Not falling
Just playing
I guess that you wanna play tonight
Not falling
Just playing
I guess that you wanna play tonight

The rhythm takes me high
I'm flying by your side
I wanna closer now, we can pretend it's love
I wanna feel your touch
So close to me tonight
You know I'll be so happy being by your side

Not falling
Just playing
I guess that you wanna play tonight
Not falling
Just playing
I guess that you wanna play tonight

Wish I could stay longer
I know you want me stay but I have things to go
Wish I could stay longer
Now ain't you angry for me I just need to go

Wish I could stop by
And maybe say hi
Wish I could take you with me happy by my side
Wish I could stop by
And maybe say hi
Wish I could take you with me happy by my side
