

## Better Story To Tell

Edwin McCain

Now have you heard how they're talking about us, baby?  
The word on the street is we are through  
I have to admit that it brings a tear when I hear

Your girls say I am crazy, my boys say you're cold  
Don't let this be the only tale ever told

There's got to be a better story to tell  
There's got to be something done  
About this broken wishing well  
Say a little prayer maybe we should try  
To turn this bad news into good  
There's got to be a better story to tell

Day after day we've been hanging on  
Night after night you pull away  
Sometimes I feel our love is gone  
What went wrong?

I can't believe it's going this way  
Hold onto me, I know we can change

There's got to be a better story to tell  
There's got to be something done  
About this broken wishing well  
Say a little prayer maybe we should try  
To turn this bad news into good  
There's got to be a better story to tell

Oh, let's talk it out  
Don't raise your voice, no need to shout  
Oh, the kids are asleep  
It's just you and me, oh

There's got to be a better story to tell  
There's got to be something done  
About this broken wishing well  
Say a little prayer maybe we should try  
To turn this bad news into good, yeah oh

There's got to be a better, a better story to tell  
There's got to be a better, a better story to tell
