

Promise Of You

Edwin McCain

Promise of you
It sleeps in the air
The air that I breathe
And I know that it's true
Don't have to convince myself to believe
What secrets sleep in the heart of a man
So much love wasted Slip right through my hands
See it in the eyes of the lonely
As they make their weary way
Shimmer in the eyes of longing
I hear it say
Promise of you
It sleeps in the air
The air that I breathe
And I know that it's true
Don't have to convince myself to believe
To believe...

What secrets sleep in the heart of the night
Dreams of salvation
Slipping out of sight
In the shimmering moments of twilight
Closing up the shine
Whisper on the wind of a rescue
Savior in time
Promise of you
It sleeps in the air
The air that I breathe
And I know that it's true
Don't have to convince myself to believe
All this time
I've been fighting my own private war
All this time
You were the peace I was looking for
