Eisley

I, I  
Lost, lost  
All respect, admiration, and  
Trust, trust  
I was just, just  
Following my heart  
And he tells me he's unfaithful  
So now I need for you to tell me it's alright

Please, oh please  
Don't do this to me, baby  
Please, oh please  
Don't get over me

I fall, fall  
You were there, there  
To expose it, what a smooth plan  
I should've seen, seen  
Through your disguise, surprise  
You've found a replacement  
And he tells me he's faithful  
But I know better now  
So please just tell me it's alright

Please, oh please  
Don't do this to me, baby  
Please, oh please  
Don't get over me

I'm sorry you've got so much  
Against you coming into this  
I appreciate your patience  
I know that you've been hurt too  
Ohh, we're black and blue  
But baby, let's make this work out  
Cause I'll always be around  
I wanna be with you forever

Please, oh please  
Don't do this to me, baby  
Please, oh please  
Don't get over me, oh baby  
Please, oh please  
Don't do this to me, baby  
Please, oh please  
Don't get over me
