

# Damned Nation

Ektomorf

i feel the pressure and i tell you  
We are repressed there are too many rules  
Open your eyes and see what's going on  
They want to control us there's no freedom

Damned nation

I know the people lose their patience  
They have nothing left no future no shelter  
Criminal violence and chaos is rising  
No one helps the world is dying

Damned nation

Don't let them take away your life  
Raise your fist don't give up the fight

Damned nation
