

5 Seconds

El DeBarge

Nice... yea...

5 seconds, 5 seconds, 5 seconds baby girl you're on (uhuh)
Once you're on ain't no coming off
Shine so much the sun could take a summer off
Some of ya'll dunno a butterfly from a moth
Turn the el debarge on take something off

All I know
Is all you need is me
Girl that's for sure
Just let me teach you
What you need to know
I only need 5 seconds girl
You know that I can change your life

South of france
See the clear blue waters
Hearing the wind
I can take you places you've never been
Girl tell me baby what's your pleasure
Tell me your fetish too
? I'll win you? baby there's no measure
There's no limit to what we can do

All I know
Is all you need is me
Girl that's for sure
Just let me teach you
What you need to know
I only need 5 seconds girl
You know that I can change your life

Bring all your friends
Believe me girl there's plenty
Money to spend
Girl we can do anything we want to
Creme brulee in an LA cafe
Late new york rendezvous
Every moonlight in miami
We'll be on a private jet for two

All I know
Is all you need is me
Girl that's for sure
Just let me teach you
What you need to know
I only need 5 seconds girl
You know that I can change your life

Uh... yea...

Five seconds on the shot clock
Is you tryna win the game or get your shot blocked?
Ball player swag, basketball wifey
Them other players couldn't pass the ball like me
Leave my shorty alone I'm asking ya'll nicely
Dine and shine to get your casket all icy
Oh, all... I... know... me and the dame kick it

I put her on a fly ish no plane ticket
Truthfully I rather she do none
But I love it when she wear dem lil' see through ones (yea)
I'm a make a movie when the preview's done
In 5... 4... 3 2 1

Come with me, you need to
Don't worry, I got you
Just give me, 5 seconds
I'll turn your life around
Loving you over again baby
Whenever, however
Just give me, 5 seconds
I'll turn your life around

All I know
Is all you need is me
Girl that's for sure
Just let me teach you
What you need to know
I only need 5 seconds girl
You know that I can change your life
