

Golden Lace

Elane

Come to me, don't fear, love
for I'll never leave you

Go to sleep, don't fear the cold
cause it won't last for long
and I'll be at your side

Winds might blow and shadows play
cold winter's song for us

But springtimes golden lace will come
sun again will fill our hearts
what we thought we lost comes home
rain wash away our fears and grief tonight
