

Love Like Ours

Elastica

getting better, on your feet
take a look, kept in deceit
a love like ours will never die

break my bonds, break my back
not a lot to break apart
a love like ours will never die
a love like ours will never die

break my bonds and break my back
not a lot to break apart
a love like ours will never die
a love like ours will never die

getting better, on your knees
three times blind, could not please
a love like ours will never die
a love like ours will never die
a love like ours will never die
