

Scarlet Angels

Eleanor McEvoy

Through my troubles out they came
Scarlet angels in the rain
When the wind blew through my veins
Scarlet angels prayed

When I couldn't sleep I saw
Scarlet angels by my door
And as the dark gave way to dawn
Scarlet angels stayed

Scarlet angels sang a song
Violins played gently on
Friends and lovers sang along
In perfect harmony

Scarlet angels sang a song (sang a song)
Violins played gently on (gently on)
Friends and lovers sang along (sang along)
In perfect harmony

And when the light came into view
The scarlet angels brought me to
Places where they placed the blues
Scarlet angels knew
A woman's heart was cast adrift
Scarlet angels rescued it
Some say angels don't exist
But scarlet angels do!

Scarlet angels sang a song (sang a song)
Violins played gently on (gently on)
Friends and lovers sang along (sang along)
In perfect harmony

Scarlet angels sang a song (sang a song)

Violins played gently on (gently on)
Friends and lovers sang along (sang along)
In perfect harmony

Those of you who've never felt
The devil's breath upon your face
May never understand
The sweetness of an angel's grace

Scarlet angels sang a song (sang a song)
Violins played gently on (gently on)
Friends and lovers sang along (sang along)
In perfect harmony
Scarlet angels sang a song (sang a song)
Violins played gently on (gently on)
Friends and lovers sang along (sang along)
In perfect harmony
