

Electric Demons in Love

Electric Six

I got so much love,
I don't know where to put it
I feel so good,
I don't know what to do
And I don't mind,
The forces of evil,
If they bring me closer to you.
Sugar

Now baby's in the kitchen,
And she's fixin' up supper
She drank all the wine,
And now she's drinkin' some more
She's cuttin' up the chicken
And she's dancin' 'round the fire
She shuffles her feet,
On the linolium floor

She says "we're starting a fire,
Electric demons in love"
Oh my
We're starting a fire,
Electric demons in love
Oh my

I went down, to the banks of the river
I went down, and I went for a swim
I went down, and then she pushed me under
And I can't remember what I did
No

Now I ain't educated but I sure ain't stupid
And I know what is wrong and I know what is right
Don't give your religion or your US government
I met my baby in the darkness of the night

I said I met my baby in the darkness on the night
I met my baby in the darkness on the night
Blood on her dress, and
She said you can't believe, everything you see

Yeah we're starting a fire,
Electric demons in...
We're starting a fire,
Electric demons in...
We're starting a fire,
Electric demons in...
We're starting a fire,
Electric demons in..
We're starting a fire,
In love
