Taxi to Nowhere

I ride a taxi To nowhere And as soon as I get out I'm gonna be alone I'm in the back seat Dying I can't remember anything at all Except the day that you left me Argh! Except the day that you left me Alone to die Waah! It's the tuxedo I'm wearing That gets me where I want to go It's the illusion of money that brings me home I ride a taxi To nowhere A taxi To nowhere And as soon as I get out I'm gonna be alone.
