

Dear Friend

Eleni Mandell

Oh my dear friend
We've been looking
It's just cities out there crumbling
We've been crying
If you write me
I will write you
But I only know in my heart
You're my dear friend
Where are you now?
Aren't you worried how I am?

Oh my dear friend
We've been searching
It's just bars and faces flashing
We've been sighing
If you call me
I will answer
But I only know in my head
You're my dear friend
Where are you now?
Aren't you worried how I am?

Oh my dear friend
We've been hiding
It's just times and flashes passing
We've been dying
If you find me
I will wait here
But I only know in my skin
You're my dear friend
Where are you now?
Aren't you worried how I am?

Where are you now?
Aren't you worried how I am?

Where are you now?
