

# My Twin

Eleni Mandell

Why did that train derail?  
201 victims were killed  
Was my twin among the dead?  
Was my twin expected to live?  
I was here at home  
Waiting for my twin to return

All those men and women gone  
Rocked from the sky in a terrible storm  
Was my twin among the many?  
Was my twin at peace and ready?  
I was here at home  
Waiting for my twin to return

We never met  
But I believe my twin's out there  
And he's looking for me  
Sharp and quick  
He'll complement  
My slow dull existence

Hey, hey

The ocean is insatiable  
Took the crew and then the passengers  
Was my twin the first or last?  
Was my twin holding fast?  
I was here at home  
Waiting for my twin to return

We never met  
But I believe my twin's out there  
And he's looking for me  
Sharp and quick  
He'll complement  
My slow dull existence

Fire fast, so fast it burns  
Swallowing everything, a furious system  
Was my twin among the lost?  
Desperately breathing water from the faucet  
I was here at home  
Waiting for my twin to return
