

## Great In Us

## Elevation Worship

We see a new horizon  
Courage in the distance  
Our hearts can feel You rising  
A stirring hope within us

You're calling out for us  
We hear Your voice cut through the darkness  
You're calling out for us as we cry out for love

Greater than our sin  
A greater love begins  
Through the power of Your cross  
Your love is great in us  
You've taken all our shame  
You've washed it all away  
Through the power of Your cross  
Your love is great in us

Your love spends the distance  
All our sin forgotten  
You're calling us to follow  
You're stirring hope within us

You're calling out for us  
We hear Your voice cut through the darkness  
You're calling out for us as we cry out for love

Greater than our sin  
A greater love begins  
Through the power of Your cross  
Your love is great in us  
You've taken all our shame  
You've washed it all away  
Through the power of Your cross  
Your love is great in us

Greater than my hurt  
Greater than my pain  
Greater than my hopes  
And all my dreams  
Greater than my past  
Greater than my doubt  
Greater than my life  
Your love for me  
[x2]

Greater than our sin  
A greater love begins  
Through the power of Your cross  
Your love is great in us  
You've taken all our shame  
You've washed it all away  
Through the power of Your cross  
Your love is great in us

A greater love in us  
A greater love in us

A greater love in us
