

## This City

### Elevation Worship

We come together and we stand as one  
With You forever  
You tell us that You'll keep Your promise  
And finish what You started

This revolution now it's starting  
And running through the streets  
And pouring through the city  
Redemption's calling  
Calling us to come alive

Our hearts on fire  
For the people in our lives  
We won't burn out, we won't stop till  
This city knows who You are

And we'll be Your love in this city  
We will live for Your love in this city  
We will be Your heart in this city  
We will live for Your heart in this city
