

Lucky One

Eleven

I open an eye to see the ghost
The truth is I lie to find my loss
Stuck in your frame I fade away
You never asked to take the whole world on
To be the lucky one
You never asked to get what's in the box
And be the lucky one
Lucky One
Lucky One
(I made you, I take you, return you null)
Lucky One
(I made you, I take you, return you null)
I wallow in gold my mind is leased
I snug in the mold but you're displeased

You never asked to take the whole world on
To be the lucky one
You never asked to get what's in the box
And be the lucky one
Lucky One
Lucky One
(I made you, I take you, return you null)
Lucky One
(I made you, I take you, return you null)

I never asked to take the whole world on
To be the lucky one
I never asked to get what's in the box
And be the lucky one
