

Lightning in a Bottle

Eli Lieb

A storm inside
You lock the door
Tell yourself you lost the fight
Just a social suicide
You want to cut
You want to cry
Running from reality
Drinking until you close your eyes

Words they can hurt
They can drag you through the dirt
Time to let go
Let them fall like dominoes

You're the brightest light I've ever seen
You're lightning in a bottle
Lightning in a bottle
Smash the glass and set yourself free
Lightning in a bottle
Lightning in a bottle
You blind me, yeah you blind me
You're the brightest light I've ever seen
You're lightning in a bottle
Lightning in a bottle

I know you feel
Impossible
Standing in an open field
Waiting for the rain to fall
Cause just above
The thundercloud
Can't you see the sky is clear
Leave those shadows on the ground

Words they can hurt
They can drag you through the dirt
Time to let go
Let them fall like dominoes

You're the brightest light I've ever seen
You're lightning in a bottle
Lightning in a bottle
Smash the glass and set yourself free
Lightning in a bottle
Lightning in a bottle
You blind me, yeah you blind me
You're the brightest light I've ever seen
You're lightning in a bottle
Lightning in a bottle
Oh, lightning in a bottle

In the eye of a storm no one can see
And the world keeps spinning away from me
I'm standing here till you believe
You're striking striking striking striking

You're the brightest light I've ever seen

You're lightning in a bottle
Lightning in a bottle
Smash the glass and set yourself free
Lightning in a bottle
Lightning in a bottle
You blind me, yeah you blind me
You're the brightest light I've ever seen
You're lightning in a bottle
Lightning in a bottle
You blind me, yeah you blind me
Lightning in a bottle
You blind me, yeah you blind me
You're lightning in a bottle
