

Famous

Eli Young Band

I wish I was famous
Yeah, I wish I was famous
'Cause if I was famous
You'd know my name

I've seen you downtown
I've walked up to you
But the words wouldn't come out
And you never knew

'Cause I'm just a guy just down the street
I'm just a face you've never seen
I'm just a heart you don't know is beating
But if I was famous
Yeah if I was famous
Hey if I was famous
You'd know my name

Wish I was a big star
Up on the screen
And driving a fast car
Like Stevie McQueen

I wish I was someone
Instead of a no one
'Cause if I was someone
Baby you'd know my name

Maybe someday I'll understand
What it feels like to hold your hand
Maybe someday
But until then

'Cause I'm just a guy just down the street
I'm just a face you've never seen
I'm just a heart you don't know is beating
But if I was famous
Yeah if I was famous
Hey if I was famous
You'd know my name

If I was famous
Yeah if I was famous
Hey if I was famous
You'd know my name
But, if I was famous
Yeah if I was famous
Hey if I was famous
Baby you'd know my name
