

Let's Do Something Tonight

Eli Young Band

If you're looking for a reason not to call it a night, I got one
I wanna get you right up to where you're feeling alright and then some
I wanna take this conversation out of this neon situation
Instead of us not saying what we're both thinking and I'm thinking...

Let's do something tonight
We'll be talking about in the morning, in the morning, in the morning
Let's do something tonight
We'll be talking about in the morning, in the morning, in the morning
Yeah

We can find a little song we ain't ever heard and sing it
Pour a little glass of something smooth and strong and drink it
We can lose all track of time, my eyes on yours and yours on mine
Before the fear of falling starts to sink in, I'm thinking...

Let's do something tonight
We'll be talking about in the morning, in the morning, in the morning
Let's do something tonight
We'll be talking about in the morning, in the morning, in the morning
Yeah

Girl we could do it all night long,
Say the word and we'll be gone,
We can do anything you ever wanted

Let's do something tonight, yeah
Tonight, yeah

Let's do something tonight
We'll be talking about in the morning, in the morning, in the morning
Let's do something tonight
We'll be talking about in the morning, in the morning, in the morning
Yeah
Tonight, tonight
Tonight, tonight
