

Reshape Reason

Elitist

On and off we tilt
Like shifting planets
From the edge of design
As fractioned pieces multiply
The metamorphic ground unveils
A map to a new life
From the distance
From the spaces between us
We will find reason
We will find hope
Counterfeit parts of the earth
Find their way into the depths of creation
Silhouetted in the sunset
Magnified by the apex of time
Concealed in the layers
Hidden from ordinary eyes
Architecture, this planet
Intelligent design
Enter a world of masterpiece
Where what you see is what you make
Enter a world of masterpiece
A perfect system
Reshape reason
What you can't see
What you can't hear
Will show itself to you
[Repeat 2x]
Enter a world of masterpiece
A perfect system
Reshape reason
