

All about You

Ella Eyre

I've been down the same road
For too long to stay no
I can't do this, I don't want this
No more
Ah

About time the bird flies
About time that I try
Going my way
Go my own way
Without you
Auw

I gave my life I gave my soul
Gave you my heart but you want more
I gave my life I gave my soul
And you gave me nothing back at all

You know I've worked so hard to give you all that you need
And from the start you never gave a sh*t about me
And after all I did you were too blinded to see, that
It doesn't matter who I am , no
It doesn' t matter what I do
It's all about you (you you you you)
It's all about you (you you you you)
It's all about you (you you you you)
It's all about you
It's all about you (it's all about you)

So mad so bitter
Go ahead and just sit there
I can't change you
I don't want to, I don't care
Auw

Look what I startin'
I know I've made my mark here
Won't forget it
No forgetting, about me
Auw

I gave my life I gave my soul
Gave you my heart but you want more
I gave my life I gave my soul (gave my soul yeah)
And you gave me nothing back at all

You know I've worked so hard to give you all that you need
And from the start you never gave a sh*t about me
And after all I did you were too blinded to see, that
It doesn't matter who I am , no
It doesn' t matter what I do
It's all about you (you you you you)
It's all about you (you you you you)
It's all about you (you you you you)
It's all about you
It's all about you (all about you)

Lesson learned, I was in your shadow
I got burned because I never said Oh
Can't say nothing cause it won't get better
Can t say nothing cause it won't get done
Turning on on the bridge is broken
Will you know which side you're burning
It won t get better for you now
It won't get better now

You know I've worked so hard to give you all that you need
And from the start you never gave a sh*t about me
And after all I did you were too blinded to see, that
It doesn't matter who I am , no
It doesn't matter what I do
It's all about you (you you you you)
It's all about you (you you you you)
It's all about you (you you you you)
It's all about you (it's all about, all about yeah)
It's all about you
