

Is it something I can see, is it something I can touch
Is it something I can feel
Is it something I can hear, is it something I can smell
Is it something I can trust

Before the surface dries out, before the palace burns
down
Before your world is overwhelmed
Before the surface dries out, before the palace burns
down
Before your world is overwhelmed

Is it something I can do, is it something I can learn
Is it something I can find
Is it something I can fix, is it something I can solve
Is it something I can prove

Before the surface dries out, before the palace burns
down
Before your world is overwhelmed
Before the surface dries out, before the palace burns
down
Before your world is overwhelmed

You scream out, I hear that
Our time is running out so fast
Wings burning, I'm fallin
Our time is running out so fast

Is it something I can see, is it something I can touch
Is it something I can feel
Is it something I can hear, is it something I can smell
Is it something I can trust

Before the surface dries out, before the palace burns
down
Before your world is overwhelmed
Before the surface dries out, before the palace burns
down
Before your world is overwhelmed

You scream out, I hear that
Our time is running out so fast
Wings burning, I'm fallin
Our time is running out so fast
