

It's time for a ride The tide is getting high  
All I've got to do is to bring my board

It's time for a ride The tide is getting high  
All I've got to do is to bring my board  
There's no stopping me No one ever could  
When I catch the wave I'm a thunderbolt  
I'm a big wave

Tide is turning and it's getting high  
Radio is playing many stupid songs  
The pot is full with cappuccino  
A pile of work left undone  
You're right I'm not match of a worker  
Completely useless by your standards  
I'm not the huge part of it anyway  
Get away from sober events of everyday life

It's time for a ride The tide is getting high  
All I've got to do is to bring my board  
There's no stopping me No one ever could  
When I catch the wave I'm a thunderbolt

Though I'm gonna die on the crest of a wave  
Do not even feel sorry for that  
Sorry for that

Tide is turning and it's getting high  
Radio is playing many supid songs  
The pot is full with cappuccino  
Morning sun is coming up  
I wanna get in the water  
Before the crowd gets here  
My cell phone is ringing  
I don't care I know I'm dumped

It's time for a ride The tide is getting high  
All I've got to do is to bring my board

It's time for a ride The tide is getting high  
All I've got to do is to bring my board  
There's no stopping me No one ever could  
When I catch the wave I'm a thunderbolt  
I'm a big wave

Hell I know you can't stop me
