

## Every Train That Passes

Elliott

Seasonal its gonna change seasonal  
Its back and forth again cure the cause  
Cause will change cure it all will be back again  
Seasonal its all the same seasonal right here  
Seasonal you're gonna change seasonal right in front of me  
Feel you made a mistake

See these colors will change right in front of me  
The stars have warned if the stars are made  
While the sailors gone

Then the bow will break around  
The lunar moon if the sun has changed  
By the time I'm gone then I'm to blame  
For the set of one and the stars were made right in front of me
