

Fountains On Fire

Elysian Fields

Last night in my dream
I traveled for years and years
Galaxies, centuries
No one was there it was bare and arid
Red earth, eternal dust
Had to keep moving
Walked for miles
Fusing force broke the dials
Now I'm there in the distance
Heard them ringing
Felt it stinging my insides
Saw the trembling white
Fountains on fire
I've arrived
Swallowed the spray
Erase my face
Kiss the curb
Met the andrange dream
Torch the final curtain
Change my destiny
In a shivering light
Bathing in the shimmering white
Fountains on fire
I've arrived
Down
