

I met Karen 25 the last days of the archives
Our instructions scrub the files
From the master hard drive
Supervision watched our every word
And every whisper
Her eyes were white in the black light
The deaccession chamber
Reprogrammed, reprogrammed
Reprogrammed, oh
Reprogrammed, reprogrammed
Reprogrammed, oh
Dead radio
If all we know is all we know
Then all we know is all we know
We know, we know, we know
A vacant signal came down
From the thirteenth constellation
I saw her in the layout
For the brides of resignation
I received an orange command
Report to supervision
Memory test, loyalty test

Mapping my cognition
Reprogrammed, reprogrammed
Reprogrammed, oh
Reprogrammed, reprogrammed
Reprogrammed, oh
Dead radio
If all we know is all we know
Then all we know is all we know
We know, we know, we know
Today I had a flashback
Staring at the smokestacks
Karen 25 and me behind the wall
But I'm useless after all
Useless after all
Reprogrammed, reprogrammed
Reprogrammed, oh
Reprogrammed, reprogrammed
Reprogrammed, oh
Dead radio
If all we know is all we know
Then all we know is all we know
We know, we know, we know
We know, we know, we know
