

# Last Night on Earth

Elysian Fields

On a high cliff  
above the sound  
a table was set  
beneath the firmament shroud

A rare invitation  
blew in from the east  
on an island once sacred  
to both native and beast  
we sucked and we savored  
all that we tasted  
wine flowing like water  
not a drop of it wasted  
the evening unfolded  
like a great fan

I found myself drifting  
down to the sand  
down to the sand

What came over me  
over me over me  
like some alien force  
that took hold of me  
i wasn't myself  
but i started dancing  
lost in this song  
under a trance and  
i felt myself falling under a spell  
i knew very well  
i might never return  
to the land of the living  
and then i was giving myself  
to the light  
and then i took flight  
i shot up like a kite  
it was my last night on earth  
my last night on earth  
my last night on earth

If you find this bottle  
bobbing its head  
smash it to pieces  
be sure that it's read  
i have departed  
say my goodbyes  
i loved you more than  
you ever realized  
I loved you more than  
you ever realized

What came over me  
over me over me  
like some alien force  
that took hold of me  
i wasn't myself  
but i started dancing

lost in this song  
under a trance and  
i felt myself falling under a spell  
i knew very well  
i might never return  
to the land of the living  
and then i was giving myself  
to the light  
and then i took flight  
i shot up like a kite  
it was my last night on earth  
my last night on earth  
my last night on earth  
my last night on earth
