

You
You read my mind
You twist me inside
I'm weak at the knees
'cause you're such a tease
You make me wanna scratch
Rush the gate and shaking
Then you hold me back
You make me wanna scratch
Vicious interference
Playing hide and catch
You live so exquisetly
I love you
You honed the dream
Sculpted mystery
Dead on the wire
Of vacant desire
You make me wanna scratch
Rush the gate and shaking
Then you hold me back
You make me wanna scratch
Vicious interference
Playing hide and catch
We're two stones rubbing our bones
Gonna make fire
Til the blood hounds fry
I want mine
You make me wanna scratch
Vicious interference
Baby down the hatch
You make me wanna scratch
Twisted inner vision
Baby paint it black
You make me wanna scratch
Vicious interference
Baby burn this thatch
You make me wanna scratch
Never leave me lying on the rail road tracks
You make me wanna scratch
Beaten to submission in this sparring match
You make me wanna scratch
Forget about resistance
Baby call this match
Burn this thatch
Ball this snatch
Itch this scratch
