

## Set the Grass On Fire

Elysian Fields

I'm gonna tell your fortune  
I'm gonna raise the dead  
I'm gonna make a motion  
I'm gonna screw your head  
I'm gonna whip that fountain  
I'm gonna break you free  
I'm gonna scale that mountain  
I'm gonna make you me  
And we'll set the grass on fire  
As our rocket ship shoots to the sky  
Leave the humans far behind us  
Humans never learn to fly  
I see you've quite a lifeline  
I'll try it on for size  
I'm gonna build a pipeline  
Directly through your eyes  
You ain't gonna get off easy  
We'll slip through space and time  
Cuz you're the only one that sees me  
I'm yours and you are mine  
And we'll set the grass on fire  
As our rocket ship shoots to the sky  
Leave the humans far behind us  
Humans never learn to fly  
And we'll set the grass on fire  
As our rocket ship shoots to the sky  
Leave the humans far behind us  
Humans never learn to fly
