

## Sleepover

Elysian Fields

My very first sleepover I guess I was too young I really was excited I thought it would be fun What we gonna do girls What we gonna play Put on chubby checker And twist the night away Or follow the leader Follow the leader I said No that one is for babies Let's do truth or dare Then they all played kiss the pillow And braided each other's hair Between the peals of laughter Whispering in each others' ear They said they had a story They wanted me to hear A bad man lives around here A very very very bad man He'll come in through the window With a razor in his hand Razor razor razor Watch the windowsill Razor razor razor Be very very still Razor razor razor He swings it low and high Razor razor razor Say your prayers before you die Take me back home I really I am scared Take me back home I miss my mom and my bed Follow the leader Follow the leader I said
