

We're In Love

Elysian Fields

Turn the voices way down Finally admitting what you hear
Shadows are trembling Like branches that never disappear I used to watch them dancing
When I was lying in my bed I'd count the headlights From the highway And wonder where it led
Where it led

All alone, I'd dream Of castles All alone Forgetting myself If I walk on water
When it feels like dying We're in love So why am I crying? Love

We can caress the flowers Below the sea, above the ground Set fire the ocean
Like kisses igniting hearts that pound One day you'll take me dancing Carelessly we'll soar
To old Spanish songs Under moonlight We're spinning round and round Round and round

All alone, I dream Of castles All alone Forgetting myself What if it never finds you
And it feels like dying We're in love So why am I crying? Opened Opened up And it's all or nothing
We're in love So why am I crying? We're in love
