

# Inhuman Anger

Embryo

Condemned to eternal pain  
I forged my soul in hate  
Reaction to injustice  
Evil lust of blood

Voices, screaming, crying  
I'll change your tears  
Into my inhuman anger

You know the reason why  
I'll smash your useless lives  
I spread around my death  
You're now my sacrificial lambs

Have no fear, enjoy the pain, cut your veins  
Lucidity leaves your mind and your actions

Voices, screamings, crying  
I'll change your tears  
Into my inhuman anger
