

Slaves to Addiction

Emerald Sun

Reading the news and watching TV
A surface to fool with our mind
No escape - attacked from all sides
The free will's about to resign

Forces of black take over the field
With order to manipulate
Last chance to suffocate
The concept before it's too late

In a cell with no key
Still you think that you're free

Slaves to addiction
We're too blind to see the pain
Behind a hidden chain
Slaves to addiction
In a world beyond the sun
As all is sad and gone

Darkness and dust confusing my brain
My freedom is taken away
Enough is enough, I'll go my own way
Deliver from bondage today

In a cell with no key
Still you think that you're free

Slaves to addiction
We're too blind to see the pain
Behind a hidden chain
Slaves to addiction
In a world beyond the sun
As all is sad and gone

We're the chosen sons of destiny
We're the defiance of the night
We're no prisoners of your endless blight
Let's wipe out this parasite

Slaves to addiction
We're too blind to see the pain
Behind a hidden chain
Slaves to addiction
In a world beyond the sun
As all is sad and gone
