

# Nothing in This World

Emil Bulls

Pardon me  
Mr. half baked  
May I introduce to you  
The incarnation of a conflagration  
Get up

The harder you pull the tighter it gets  
We're young and committed  
We'll give you the whole nine yards

Yeah  
We'll never stop we'll never give up  
Hungry at heart  
Like we've been from the start  
Yeah we'll never stop we'll never give up  
Hungry at heart  
Hungry at heart we know  
There's nothing in this world that we couldn't do  
Cause we're so hungry at heart there's nothing in this world  
That be couldn't do

Only the future knows where this road will take us  
We're about to find out  
We've got the engine and the fuel

No one can stop us now
