

I'm watching over you  
We stick together like glue  
Even when you're dead and gone  
I'll live on you

I'm your parasite you're my host come feed me  
I'm the parasite gimme more gimme more  
I breathe you in I breath you out  
Feed me make me dream about  
Sill being nurtured by you next summer... girl

Don't waste your time and try to leave  
I'll track you down at every turn  
Watch the lump under your skin  
Guess who's living within

Me the parasite inside your skin  
You the host that takes me in  
Me the parasite inside your skin  
You the host that takes me in  
Parasite... I am god  
Parasite... I am god
